Rationale/Description of Key Rating Drivers/Rating sensitivities:

BWR has essentially relied upon the firm's audited financial results upto FY17, provisional financials of FY18, projected financials of FY19 and FY20 as well as publicly available information and the information/clarifications provided by the firm.

The ratings draws strength from experience of management in the line of business, moderate scale of operations and proximity of the manufacturing unit to the cotton producing belt of Gujarat. However, the rating is constrained by moderate financial risk profile and competitive nature of the industry. Further, being a partnership firm, any significant withdrawal from the capital/current account by the partners would adversely impact the capital structure, hence this remains a rating sensitivity.

Going forward, the ability of the firm to increase profitability, improve its financial risk profile will be the key rating sensitivities.

Description of Key Rating Drivers

- **Credit Strengths:**

1. **Experience of management in the same line of business:** Partners of Aaditya Ginning Mill have an experience of around 15 years in cotton industry.
2. **Moderate scale of operations:** The firm has reported an operating income of Rs.24.16 Crs in FY17 which further improved to Rs.42.89 Crs as per FY18 provisional financials.
3. **Geographical advantage:** The manufacturing unit of the concern is located near the cotton producing belt of Gujarat which gives easy access to availability of raw material.

● **Credit Risks:**

1. **Moderately weak financial risk profile:** Aaditya Ginning Mill has low net worth of Rs.2.42 crs as on 31st March 2017 coupled with high gearing at 2.75 times. Further both the debt protection metrics of the firm remained moderate in FY17.
2. **Fragmented and competitive nature of industry:** There are high number of organized as well as unorganized players in the market. Hence, competition may have an adverse effect to the operating profit/margin of the firm.

Analytical Approach

For arriving at its ratings, BWR has applied its rating methodology as detailed in the Rating Criteria detailed below (hyperlinks provided at the end of this rationale).

Rating Outlook:Stable

BWR believes the **Aaditya Ginning Mill** business risk profile will be maintained over the medium term. The ‘Stable’ outlook indicates a low likelihood of rating change over the medium term. The rating outlook may be revised to 'Positive' in case the revenues and profit show sustained improvement. The rating outlook may be revised to 'Negative' if the revenues go down and profit margins show lower than expected figures.
