RATING ACTION /Outlook:

The reaffirmation of the rating continues to factor in more than 2 decades of experience of the promoters in the ship breaking industry and average financial risk profile marked by moderate debt protection metrics.

These strengths are partially offset by the relatively modest size of operations of the company, cyclicity associated with the ship breaking business, high reliance on LC backed purchases, exposure to environmental and regulatory risk and susceptibility of profitability margins to adverse exchange rate fluctuations and volatile metal prices.

BWR believes the Atam Manohar Ship Breakers Pvt Ltd business risk profile will be maintained over the medium term. The ‘Stable’ outlook indicates a low likelihood of rating change over the medium term.
