#### Rating Reaffirmed

##### Rationale/Description of Key Rating Drivers/Rating sensitivities:

BWR has essentially relied upon the audited financial results of Company up to FY17, publicly available information and information/clarifications provided by the management.

The rating reflects the funding model, financial support from Azim Premji Philanthropic Initiatives Private Limited and social objectives of the Company. The rating is constrained by regulatory risks in the Education sector.

The ability of the Company to manage its regulatory risks associated with the operations in the education sector would be the key rating sensitivities.

#### Rating Outlook: Stable

BWR believes the **Azim Premji Foundation's** business risk profile will be maintained over the medium term. The 'Stable' outlook indicates a low likelihood of rating change over the medium term. The rating outlook may be revised to 'Positive' in case the revenues and profit show sustained improvement. The rating outlook may be revised to 'Negative' if the revenues go down and profit margins show lower than expected figures.
