RATING RATIONALE:

The Tourism- Homestay rating assigned for Nithish Homestay positively factors the nearby tourist attractions, clean, spacious rooms and adequate facilities. However, the rating is constrained by the limited track record of operations, need for improvement in homestay infrastructure, security and fire safety measures, inherent seasonality risk associated with the cash flows of the homestay industry and competition from other homestay players in the vicinity.

Nithish Homestay's ability to sustain its services and ensure value for money stay options would be the key rating sensitivities. Provision of additional amenities, improvement in safety and security measures and ensuring better services for differently abled guests with special needs is necessary.
