The lenders/investors may note to exercise due caution while using the above rating which mentions "Issuer Not Cooperating," since the rating lacks any projections or forward-looking component as it is arrived at based on the best

available information without any management/banker's interaction.

Limitations of the Rating

Information availability risk is a key factor in the assessment of credit risk as generally, non-cooperation by the rated entities to provide required information for a review of the assigned rating may also be accompanied by financial stress. The current rating action has been taken on the basis of the limited information on the issuer's performance. Accordingly, the lenders, investors and other market participants are advised to exercise appropriate caution while using this rating as it may not adequately reflect the credit risk profile of the issuer. The transaction has been redeemed, and the rating needs to be withdrawn, but the trustee has not complied with the withdrawal policy; hence, BWR is constrained to continue the rating under the Issuer Not Cooperating category until compliance is done
