

## Sensex up over 350 pts, Nifty above 25,650; IT drags, broader market weak | Moneycontrol News

Brickwork Ratings noted that easing tariff uncertainty and shifting global trade dynamics are influencing market sentiment and safe-haven demand, with geopolitical risks and policy developments continuing to shape investor behaviour across commodities and financial markets. Rajeev Sharan, Head – Criteria, Model Development & Research, highlighted that such global policy shocks can push investors toward defensive assets while also creating broader volatility in markets.
