ABS, MBS and Corporate Loan Pools – Performance Update For Collections till May 2021 (June 2021 Payout)

Brickwork Ratings has rated Asset Backed Securitisation (ABS) / Mortgage Backed Securitisation (MBS) pools and Corporate Loan Pools covering various asset classes which include Home Loans, Loans Against Property, Microfinance Loans and Construction Finance Loans.

This report analyses the performance of all rated transactions live as on recent date. It covers the characteristics of pools at the time of origination and their key performance indicators. Key performance indicators include 90+ DPD levels, 180+ DPD levels, Cumulative Collection Efficiency Ratio, Prepayments etc. BWR also calculates the Break-even Collection Efficiency ratio to determine the minimum collection efficiency required on pools' future cash flow to be able to serve the payouts on time. It also covers the Credit Enhancement Utilization. Detailed performance report and interpretation of each term are briefed in the later sections.

TERMINOLOGIES

Originator: The bank or financier that has originated the pool of receivables.

Transaction Structure: Structure of a transaction can either be at par or at a premium, depending on whether the pool principal is sold at par or at a premium to investors. If there is some new structure, then it is suitably mentioned

Pool principal: The sum of principal outstanding for all loans present in the pool at the time of securitisation.

Pool Cash Flows: Total cash flows (principal and interest) arising from the assigned pool.

Investor payouts: The sum of expected principal and interest obligations towards the PTC holders or the acquirer at the time of securitisation.

No. of contracts: The number of contracts in the pool at the time of securitisation.

Asset class/type: The asset(s) that back the securitised receivables.

Weighted average seasoning: Indicates the weighted average seasoning (i.e. number of months elapsed from the date of borrowing) (in months) of the pool at the time of securitisation.

Weighted average loan-to-value ratio: The weighted average loan-to-value (LTV) ratio of the pool at the time of securitisation.

Pool Maturity: The month on which last payment to the investor is to be made

Cash collateral as percentage of initial pool principal: The cash collateral stipulated at the time of securitisation as a percentage of total pool principal.

Scheduled excess interest spread (EIS) as percentage of initial pool principal: EIS is the difference between scheduled interest cash flow from underlying obligors and scheduled interest payout to investor / acquirer. It is calculated as a % of initial pool principal outstanding. This is the embedded cushion available in a transaction on account of the differential between the pool yield and pass-through rate.

Over-collateralisation as percentage of initial pool principal: In certain transactions, there is over-collateralisation (where the initial pool principal is higher than the principal payouts promised to the investors). This over-collateralisation (difference between initial pool principal and the principal payouts promised to the investors) is expressed as a percentage of initial pool principal.

Months post securitisation: The number of payouts done since securitisation.

Amortisation: Amount of pool/PTCs which got amortised as a percentage of initial pool principal /PTCs issued at the time of securitisation.

Cumulative prepayments: The ratio of cumulative prepayments in a pool to the pool principal at the time of securitisation.

30+ overdues: The overdues on contracts delinquent for more than 30 days as a percentage of pool principal at the time of securitisation.

90+ overdues: The overdues on contracts delinquent for more than 90 days as a percentage of pool principal at the time of securitisation.

30+ delinquencies: The unamortised principal plus the overdues on contracts delinquent for more than 30 days as a percentage of pool principal at the time of securitisation.

90+ delinquencies: The unamortised principal plus the overdues on contracts delinquent for more than 90 days as a percentage of pool principal at the time of securitisation.

Cash Collateral as % of Balance POS/PTCs: It is the ratio of outstanding cash collateral as on date as a % of principal outstanding/PTCs Outstanding as on date.

Cash collateral utilisation: The cumulative cash collateral utilised as a percentage of cash collateral stipulated at the time of initial rating. In case of transactions that have witnessed reset of cash collateral, the utilisation is expressed as a percentage of cash collateral available in the transaction subsequent to reset.

Break Even Collection Efficiency: Minimum collection efficiency required from future billings (Principal + Interest) to serve the investor payouts (Principal + Interest).

Cumulative Collection Efficiency: This is computed as the cumulative collection in the pool (excluding prepayments) as a % of Cumulative Monthly Billing to the Servicer.

Above metrics are calculated based on monthly servicer/trustee reports for transactions.

Note: SEFL has not met any of its repayment obligations following the interim order passed by NCLT, Kolkata's on 30 Dec 2020 granting moratorium on its repayments from 1 January 2021 to 30 June 2021 or status quo with respect to contractual claims/dues/terms/rights of lenders of SEFL is to be maintained till such time the interim direction as passed by the Hon'ble Tribunal is subsisting.

Hence, BWR was restrained from treating the non-payment of interest or principal as default earlier, given the restrictive order of the Hon. NCLT Kolkata dated 30 Dec 2020, specifically Para 34 directing credit rating agencies (CRAs) to maintain SEFL's rating at least in investment grade and directing CRAs to not treat any non payment of debt obligations as default.

BWR appealed against the Hon. NCLT order dated 30 Dec 2020 and the Hon. NCLAT (National Company Law Appellate Tribunal) Delhi order dated 5 April 2021 has stayed the aforesaid Hon. NCLT, Kolkata's order. BWR has therefore recognised the continuous delays in debt repayment obligations of the company as default and downgraded the ratings of BLR/NCD/IPDIs on 6 April 2021 in line with SEBI guidelines.

Post the downgrade of SEFLs rating to BWR “D”, the ratings of all the securitisation transactions were also downgraded to BWR C (SO) on 7 April 2021 considering the fact that SEFL is the collection and servicing agent for all the above transactions and these transactions are bankruptcy remote transactions and BWR has not heard from the investors or from the debenture trustees on timely payments, even after repeated follow ups and considering the lack of updated information on payouts.

The information provided above is shared by the company and is as on 30 June 2020, as we have not received payout reports from the trustee. Subsequent to June 2020, no information and/or payout report is received from the company and/or the trustee despite repeated reminders.

Note: SEFL has not met any of its repayment obligations following the interim order passed by NCLT, Kolkata's on 30 Dec 2020 granting moratorium on its repayments from 1 January 2021 to 30 June 2021 or status quo with respect to contractual claims/dues/terms/rights of lenders of SEFL is to be maintained till such time the interim direction as passed by the Hon'ble Tribunal is subsisting.

Hence, BWR was restrained from treating the non-payment of interest or principal as default earlier, given the restrictive order of the Hon. NCLT Kolkata dated 30 Dec 2020, specifically Para 34 directing credit rating agencies (CRAs) to maintain SEFL's rating at least in investment grade and directing CRAs to not treat any non payment of debt obligations as default.

BWR appealed against the Hon. NCLT order dated 30 Dec 2020 and the Hon. NCLAT (National Company Law Appellate Tribunal) Delhi order dated 5 April 2021 has stayed the aforesaid Hon. NCLT, Kolkata's order. BWR has therefore recognised the continuous delays in debt repayment obligations of the company as default and downgraded the ratings of BLR/NCD/IPDIs on 6 April 2021 in line with SEBI guidelines.

Post the downgrade of SEFLs rating to BWR "D", the ratings of all the securitisation transactions were also downgraded to BWR C (SO) on 7 April 2021 considering the fact that SEFL is the collection and servicing agent for all the above transactions and these transactions are bankruptcy remote transactions and BWR has not heard from the investors or from the debenture trustees on timely payments, even after repeated follow ups and considering the lack of updated information on payouts.

The information provided above is shared by the company and is as on 30 June 2020, as we have not received payout reports from the trustee. Subsequent to June 2020, no information and/or payout report is received from the company and/or the trustee despite repeated reminders.

Note: SEFL has not met any of its repayment obligations following the interim order passed by NCLT, Kolkata's on 30 Dec 2020 granting moratorium on its repayments from 1 January 2021 to 30 June 2021 or status quo with respect to contractual claims/dues/terms/rights of lenders of SEFL is to be maintained till such time the interim direction as passed by the Hon'ble Tribunal is subsisting.

Hence, BWR was restrained from treating the non-payment of interest or principal as default earlier, given the restrictive order of the Hon. NCLT Kolkata dated 30 Dec 2020, specifically Para 34 directing credit rating agencies (CRAs) to maintain SEFL's rating at least in investment grade and directing CRAs to not treat any non payment of debt obligations as default.

BWR appealed against the Hon. NCLT order dated 30 Dec 2020 and the Hon. NCLAT (National Company Law Appellate Tribunal) Delhi order dated 5 April 2021 has stayed the aforesaid Hon. NCLT, Kolkata's order. BWR has therefore recognised the continuous delays in debt repayment obligations of the company as default and downgraded the ratings of BLR/NCD/IPDIs on 6 April 2021 in line with SEBI guidelines.

Post the downgrade of SEFLs rating to BWR "D", the ratings of all the securitisation transactions were also downgraded to BWR C (SO) on 7 April 2021 considering the fact that SEFL is the collection and servicing agent for all the above transactions and these transactions are bankruptcy remote transactions and BWR has not heard from the investors or from the debenture trustees on timely payments, even after repeated follow ups and considering the lack of updated information on payouts.
